

## ECHELON

- Covered front and rear porches
- Vaulted ceilings in living area and kitchen
- Granite countertops throughout
- Pergo Outlast laminate flooring in living areas

This home is a great example of making ideal use of space. The vaulted ceilings in the living areas and kitchen make this home feel large and open. The kitchen is centrally located, and features a large rectangular island that provides extra eating space. A tray ceiling makes the master bedroom feel grand. With a walk-in closet and close proximity to the laundry room, the layout is very convenient.

This plan comes standard with custom cabinetry, complete with door/drawer hardware, and granite countertops. With the three car garage and unfinished basement, there is ample room for storage.
