This is a great open concept floor plan with split bedrooms. This plan features a covered porch and over 1500 square feet on the main level. The kitchen is centrally located between the family and dining room, making it perfect for entertaining. The master suite includes dual sinks, a separate tub and shower, and large walk-in closet. Built in lockers by the laundry room give plenty of room for hanging hats, jackets, or backpacks.

This plan comes standard with custom cabinetry, complete with door/drawer hardware, and granite countertops. With an unfinished basement, this house has plenty of room for your family to grow.
