

STABILIZER

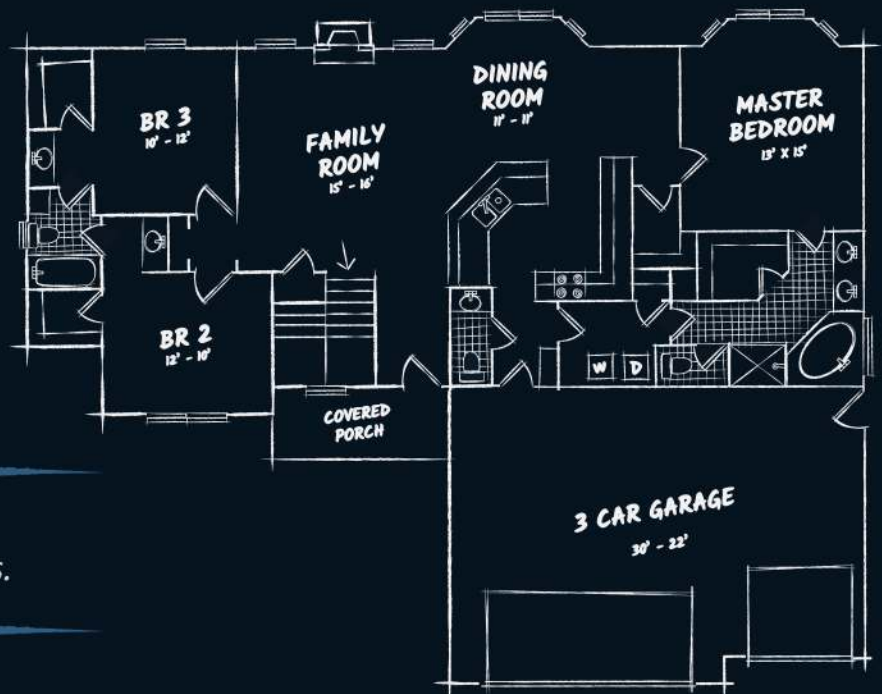

- Covered front porch
- Vaulted ceilings in living areas
- Granite countertops throughout
- Pergo Outlast laminate flooring in living areas
- Walk-in closets

With large bedrooms and walk-in closets, there are many things to love about this plan. A large pantry and dining room make this kitchen great for someone who loves to cook. The large master suite has a corner tub, shower, and plenty of closet space. The built-in lockers across from the laundry room provide space to hang hats, coats, or backpacks.

This plan comes standard with custom cabinetry, complete with door/drawer hardware, and granite countertops. With the 3 car garage and large unfinished basement, this plan can accommodate many different size families.
